Parallel sessions:

There will be several parallel sessions on 'Ozone' and 'Moss survey'. Depending on papers offered, the following topics are likely to be presented and discussed:

Ozone:

- Application and new developments of flux-based methodology and critical levels for crops, forest trees and (semi-)natural vegetation;
- Updates required to Scientific Background Document B for Chapter 3 of the Modelling and Mapping Manual;
- Progress on improving and validating soil moisture index in the EMEP model;
- Monitoring and recording ozone damage on vegetation – EU National Emission Ceilings Directive (2016/2284/EU) and smart-phone App;
- Evidence of ozone impacts on crops in developing regions;
- Interactive impacts of ozone and nitrogen on vegetation in a changing climate.

Moss survey:

- Experiences with data submission for the 2015/16 moss survey;
- Results and maps of the 2015/16 moss survey on heavy metals, nitrogen and POPs (at national and regional scale);
- Further development and application of mosses as biomonitors of heavy metal, nitrogen and POPs pollution;
- Preparations for the 2020 moss survey, including moss survey manual.

Both sessions:

- Outreach activities in Eastern Europe, Caucasus and Central Asia (EECCA), Asia and other regions (e.g. Africa, South-America);
- Collaboration with other subsidiary bodies of the Convention, including other ICPs and EMEP Centres/Task Forces.
